### What Matters to You?

Strategic Delivery Plan

March 2023 - June 2026

#### Who we are

What Matters to You (WM2U) is a community-based systems change initiative working alongside families in Dundee and East Ayrshire. WM2U focuses on shifting public resources to offer family support earlier, to enable children to flourish within their own families. WM2U adopts an equitable approach to recognise and take responsibility for working to change and remove the systemic and structural barriers that get in the way of people being able to thrive. Those most affected by inequality must be equal partners in making these changes happen and in the evaluation of impact.

# Strategic objectives for the WM2U approach 2023-2026

SO1

Create conditions and structures that sustain change by working alongside families to co-produce and embed new ways of working and accelerate existing and effective interventions.

SO2

Scale the WM2U approach deeply across both Local Authority areas.

SO3

By listening to the voices of children and families Public Services will increase investment in prevention, thus in the medium term making significant public sector savings for reinvestment and enable children to flourish within their own families.

SO4

Our influencing strategy achieves a redesign of children's services locally and contributes to how national policy is implemented and practice is shaped nationally.

## What we seek to achieve in East Ayrshire and Dundee

- Public service leaders are able to shift resources and focus to offer support earlier, enabling children to flourish within their own families.
- Local authorities and their partners can use data to measure the shift to prevention and can identify how they reduce the number of children who are care experienced or in formal measures, such as their Child Protection Register.
- Genuine voice-led policy and practice is experienced by children and families and contributing to local, redesigned, children's services.

The WM2U approach in East Ayrshire and Dundee will report locally on the progress of these objectives. The following tables set out the priority activities, success criteria and timescales between June 2023 – March 2024 to meet the Plan's four strategic objectives.

### Programme board strategic objectives and indicators

This chart shows the **outcomes** we want to achieve as a result of the work to achieve **these strategic objectives** and the **strategic indicators** we will use to report on progress and achievement as part of the WM2U Learning Framework.

#### **Strategic objective**

#### Strategic indicators

#### **WM2U Outcomes**

SO1

Create conditions and structures that sustain change by working alongside families to co-produce and embed new ways of working and accelerate existing and effective interventions.

- a) Families have voice and agency and are at the heart of change for themselves and others.
- b) The contribution and achievements of families, communities and local decision makers are visible to them and others.
- c) Families, communities and decision makers pay attention to learning to sustain continuous change

SO2

Scale the WM2U approach deeply across both Local Authority areas.

- d) Those working alongside families have new insights about what matters to families and put the voice of families at the heart of their work, as an embedded way of working.
- e) The degree of scaling is seen through a combination of changes in the embedded cultural values and beliefs experienced within the system; changes in formal organisational policies, protocols and structures; and increasing numbers of people engaging in this approach.

SO3

By listening to the voices of children and families Public Services will increase investment in prevention, thus in the medium term making significant public sector savings for reinvestment and enable children to flourish within their own families.

- f) Public service leaders have shifted resources and focus to offer support earlier, enabling children to flourish within their own families.
- g) Local authorities and their partners can use data to measure the shift in focus to prevention and identify how they reduce the number of children who are care experienced or in formal measures, such as their Child Protection Register.

SO4

Our influencing strategy achieves a redesign of children's services within East Ayrshire and Dundee and contributes to how national policy is implemented and practice is shaped nationally.

- h) Genuine voice-led policy and practice is experienced and contributing to local, redesigned children's services.
- i) Learning influences understanding of how voice can be mobilised to influence the design and implementation of national policies.

Seeing a positive difference on the ground.

A sense of looking towards a positive future.

Better mental health for children & families.

Real supportive support at the right time.

A sense of belonging to a valued group, feeling that you matter and are valued within it.

Create conditions and structures that sustain change by working alongside families to co-produce and embed new ways of working and accelerate existing and effective interventions.

#### **Impact Indicators:**

- 1 Families have voice and agency and are at the heart of change for themselves and others.
- 2 The contribution and achievements of families, communities and local decision makers are visible to them and others.
- Families, communities and decision makers operate as a community of people who pay attention to learning and understand their role in achieving and sustaining change.
